

COMPANY PROFILE

TROPICAL VERTICAL BLINDS (PVT) LTD

"A DIVISION OF TROPICAL SHADES"

ELOQUENT IN CLASSICAL ELEGANCE!!!

Who We Are

Tropical vertical Blinds is a registered company in Zimbabwe that specializes in blinds, curtains, car sheds, carpets, and awnings. Tropical vertical blinds is an Innovative Reseller of High-Quality Blinds, carpets, and awnings, we supply a range of blinds and doormats to suit your corporate colors. From bold tone statement and delicate designs that subtly blends into striking metallic that adds sparkle, wood, and vanes or bamboo textures that give a natural feel "TROPICAL VERTICAL BLINDS ARE THE IDEAL EXPERTS" Tropical Vertical Blinds will help you complete the vision for your home and offices with the latest designs and colors.

Tropical Vertical Blinds was established in 2007 only manufacturing vertical blinds in Zimbabwe. We aim to completely satisfy our customers by using the knowledge and expertise gained from our experience. Tropical vertical blinds now manufacture and market a full range of Internal and External blinds, curtains, doormats, car sheds, and awnings.

Tropical Vertical Blinds' key focus area that makes it peculiar is the touch of gold within its interior and exterior finishing. We add value by creating ideal outcomes for stakeholders, where they love the transformation of their property and maximize financial returns.

Tropical Vertical Blinds is a member of the Fashion line Network of blinds and curtains manufacturers. This is a group of 5 manufacturers around South Africa and Brazil who together organize better pricing from suppliers, and exclusive fabric ranges, and share ideas and technology. This gives Tropical Vertical Blinds customers access to the quality, range, and prices of a national company with the service, care, and reliability of a local company.

We manufacture the most comprehensive range of home improvement products. With Blinds, curtains, carpets, car sheds, Awnings, and Shutters products, our customers have access to a 'One Stop' home improvement shop. We have a large range of products to suit any budget. Organize a representative by placing a call at +263 77 347 6793 or emailing us at tvblinds@gmail.com.

Vision

To be the nation's respected and attractive company In the industry, dedicated to delivering products recognized by our customers as key factors in the success and offer quality value of world-class standards.

Mission

To add value by creating ideal outcomes for property owners who love the interior and exterior transformation of their property.

Values

- Quality
- Innovation
- Integrity
- Competence
- Client Forever

What We Do

Tropical vertical blinds offer a wide range of products and services for interior and exterior improvements. For all our products and services, we provide fixes and supplies to suit the customer's needs.

INTERNAL PRODUCTS

1. Vertical Blinds

Vertical blinds (also known as vertical drapes) combine a luxurious and elegant look with style and substance. The merchandise consists of an aluminum headrail mechanism, nonwoven fabric vanes, a plastic valance designed to be attached to the top of the aluminum headrail, plastic vanes weights that are inserted at the bottom of the nonwoven fabric vanes, plastic and nylon attachments that secure the bottom vanes together, and other steel and plastic hardware.

Function

With a modern color palette, our vertical blinds are stylish and will enhance the view from any room in the house. The blinds can be configured to open from the left, right, center, or centrally stacked, making them ideal for slanted windows.

Features

Simple easy-to-use fingertip controls rotate the individual slats through 780 degrees giving absolute control over the light and the level of desired privacy.

2. Aluminum Venetians

Aluminum Venetians from TVB are a classic, refreshing, and functional alternative to both modern and traditional architecture. Venetians are the most functional and long-lasting blinds in the Fashion Line collection. Every decorating situation and budget can be accommodated by a color and slat style. They are less aesthetically pleasing, but they perform better in areas with high humidity and condensation than wood blinds, making them a popular choice for window treatments in bathrooms and kitchens.

Function

Both fashionable and functional, Tropical Vertical Blinds Venetians provide light control and optimum versatility. With a simple twist, you can control the light, view, and temperature. The blinds can also be easily raised to lock into any position.

Features

Tropical Vertical Blinds Venetians offer the advantage of being maintenance-free and water-resistant, being manufactured from either high-quality anodized or powder-coated aluminum finishes. The result is a versatile Venetian blind that is equally suitable for use in both wet areas and living areas.

Options

A Tropical Venetians Blinds consultant can guide you in the complete range of options available: - Micro (25mm), slim line (50mm), and a variety of designer colors, and finishes available.

3. Roller Blinds

Tropical Vertical Blinds Roller Blinds - also known as Holland Blinds - are a practical and affordable window covering solution for both your home and office. They are free hanging and are in caskets with slides and they are also used for skylights. In both cases, there is a rich range of patterns and colors we offer that can suit your windows.

Function

Our Roller Blinds can be operated using traditional spring operation or easy to use chain drive mechanism - or for the ultimate in modern living, they can even be motorized and operated using the remote control, switch, or timer controls.

Features

Tropical Vertical Blinds Roller Blinds can be created to suit any particular design theme and are designed to suit any insulating requirements. A large range of fabrics and color-coordinated accessories can achieve the perfect look with a simple plain trim, modern bottom rail, or further options of fancy trims.

Options

A Tropical Vertical Blinds consultant can guide you in the complete range of options available: - Extensive range of fabrics, Plains, Textured, Reflective, The latest pattern prints, and styles.

4. Wooden Venetian Blinds

Wooden Venetian is a classical, refreshing & natural alternative to both modern, and traditional architecture and it is a rustic window treatment designed to attract attention. Venetians are the most functional and enduring blind in the Fashion Line range. There are styles to suit all decorating situations and budgets.

Function

Our Wooden Blinds can be operated using traditional spring operation or easy to use chain drive mechanism - or for the ultimate in modern living, they can even be motorized and operated using the remote control, switch, or timer controls.

Features

Both fashionable & functional, Timber Venetians provide light control & optimum versatility. They offer added advantage of free maintenance, are water-resistant, and are equally suitable for use in both wet and living areas. All our Timber Venetians are finished with traditional pelmets & tailored to perfection using only the very best in components and craftsmanship.

Options

Our consultant can guide you in the complete range of options available: - Extensive range of fabrics, Plains, Textured, Reflective, The latest pattern prints, and styles.

5. Bamboo Blinds

Bamboo blinds are a renewable resource and are a wise environmental choice. They can be used to grace the windows of upscale homes and offices with natural beauty.

Function

Bamboo blinds systems are created from bamboo trees attached to a simple headrail system using roller-mounted carriers that result in a lightweight and easy operation. The bamboo blinds can then be drawn up and down using a cord operating system and can be secured by cleats and/or cord locks at any height. The operating controls can only be on the right or left-hand side.

Features

Bamboo blinds are a modern option over verandah windows, gazebo windows, and any window or door with a wooden finish. They combine well with Roller blinds and can be easily operated and moved out of the way for access areas. Bamboo blinds are also very beautiful, functional, versatile, and natural.

Options

Our consultant can guide you in the complete range of options available. Outdoor Laguna, Textured or blackout, Natural Wooden look, the latest pattern designs, and styles.

6. Panel Blinds

Panel blinds system provides a contemporary method of obtaining privacy and sun protection. By using large panels the product can suit a minimalist decorating style and can be used in conjunction with Roman Blinds.

Function

Panel Blinds are created from flat fabric panels attached to a simple headrail system using roller-mounted carriers that result in a lightweight & easy operation. The fabric panels can then be drawn sideways using either a cord or wand operating system.

Features

Panel blinds are a modern option over large windows, sliding doors, and bi-fold doors. They combine well with Roman Blinds and can be easily operated and moved out of the way for access areas. Panel blinds are a modern option over large windows, sliding doors, and bi-fold doors. They combine well with Roman Blinds and can be easily operated and moved out of the way for access areas.

Options

Our consultant can guide you in the complete range of options available. Outdoor Laguna, Textured or blackout, Natural Wooden look, the latest pattern designs, and styles.

7. Roman Blinds

Make your home look like a display home! For a contemporary look that combines soft fabric panels with a functional operating system, Roman Blinds (also known as Roman Shades) are the ideal window covering solution for your home.

Function

The translucent finish of Tropical Vertical Blinds Roman Blinds creates a soft, filtered light effect whilst providing good levels of privacy. Utilizing a block-out fabric will allow even greater light control and privacy while maintaining the elegant look of the blind.

Features

Panel blinds are a modern option over large windows, sliding doors, and bi-fold doors. They combine well with Roman Blinds and can be easily operated and moved out of the way for access areas. Panel blinds are a modern option over large windows, sliding doors, and bi-fold doors. They combine well with Roman Blinds and can be easily operated and moved out of the way for access areas.

Options

Our consultant can guide you in the complete range of options available; an extensive range of fabrics, available with translucent fabrics, available with a Blackout coating, making it ideal for bedrooms or areas where light blackout is required. Both the translucent and blackout finishes offer the maximum UPF rating of 50+, which dramatically reduces the amount of harmful Ultraviolet light entering a room. Tropical Vertical Blinds also offer you the option of neutral flocked backing on certain fabrics so that you can create a uniform look when viewed from the outside of the house.

8. Eclipse Blinds

Our roller blinds are elegant, practical in design, and smooth in operation, even on the most enormous windows. Take control of the sun coming into your home with these cozy-looking Eclipse double roller blinds. Eclipse blinds are also very beautiful, functional, and versatile and give a natural feel. They allow you to adjust light and privacy easily and quickly by changing the height of the blind.

9. Straight Drop Blinds

Straight Drop Awning is custom-made to suit your specific requirements and serves as temporary partitions for outdoor areas from the protection of rain and temperature. Straight Drop Awnings prevent discomfort from draughts, wind, and rain which can be a seasonal problem. They virtually add an extra room to your home and are easy to expand and retract, with many different options.

10. Curtains, Curtain Rods, and Rails

A set of curtains is a window treatment that comes in 2 or more sections consisting of left and right curtains. It leaves a classical elegant outlook to match with furnishing and designs. A curtain is also the movable screen or a drape in a theater that separates the stage from the auditorium or that serves as a backdrop. Curtains are often hung on the inside of a building's windows to block the passage of light, for instance at night to aid sleeping or to stop light from escaping inside of a building.

a. Hospital Curtains & Tracks

b. PVC Strip Curtains

Ideal for warehouses, hospitals, cold rooms, food & chemical factories, and abattoirs. The flexibility of PVC Strip curtains allows ease of access to people and vehicles.

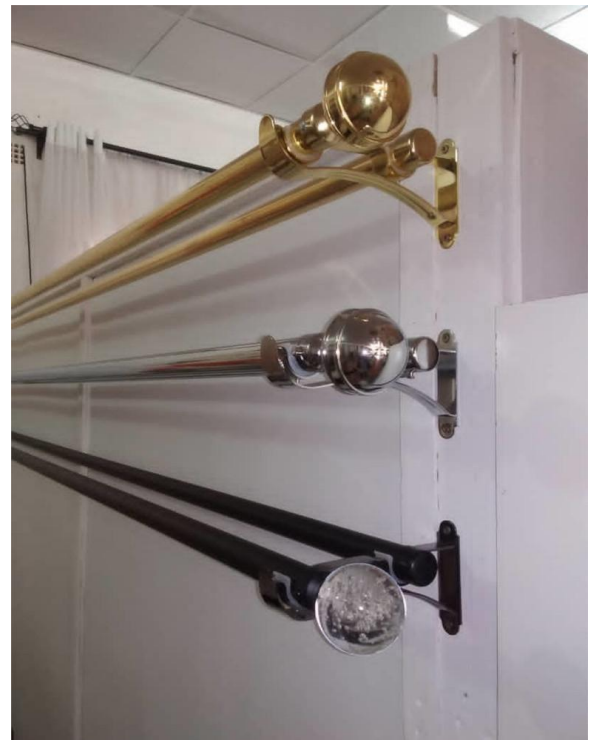

c. Domestic Curtains

Our custom blackout curtains and blackout shades provide 100% blackout solutions to your living room, kitchen, decoration for events, bedroom offices, auditoriums, photo studios, hotels, and any commercial application.

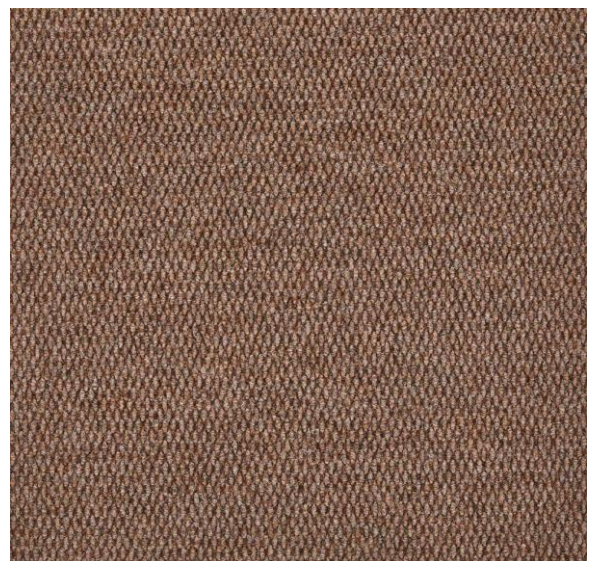

Curtains vary according to clarity, ultra-light deterioration, oil and dust retention, noise absorption, fire resistance, and life span and can be moved by hands and they are held out of the way of the window using curtain tie-backs. They are also a form of window treatment and complete the overall appearance of the house.

11. Carpets

Tropical Vertical Blinds carpets were originally woven to the dimensions of the specific area they were covering. They were later made in smaller strips, around the time stair carpet became popular, and were

woven at the site of the job by the carpet fitter. Berber entrance mats are 700% needle-punched polypropylene fiber entrance mats that combine durability with an attractive appearance.

Features

These carpets were then held in place with individually nailed tacks driven through the carpet around the perimeter and occasionally small rings in the carpet which were folded over. The introduction of "smooth edge" also known as "tack strip", "tackles strip", or "gripper strip" simplified the installation of wall to wall carpeting, increasing the neatness of the finish at the gripper strips are essentially the same thickness as underlay, using gripper strips yields a level edge, whereas tacking gives an uneven edge.

12. Artificial Grass

Tropical Vertical Blinds is committed to bringing you the highest quality artificial grass garden surfaces at great value prices. Our product range covers everything from premium premier lawns to synthetic AstroTurf surfaces – providing a solution for all your garden dreams. With solutions for both the domestic user and commercial landscaper alike, the range includes AstroTurf, Premier, and Horticultural turf, as well as sheep’s wool carpets, infill mats, and various waterproof foam blocks.

13. Doormats

Effective entrance matting systems scrape off dirt and debris, absorb moisture, and dry the bottom of shoes. Doormats reduce instances of slips and falls dramatically. Tropical Vertical Blinds provides a wide variety of both plain, rubber, and branded doormats, heavy-duty and simple-entrance mats.

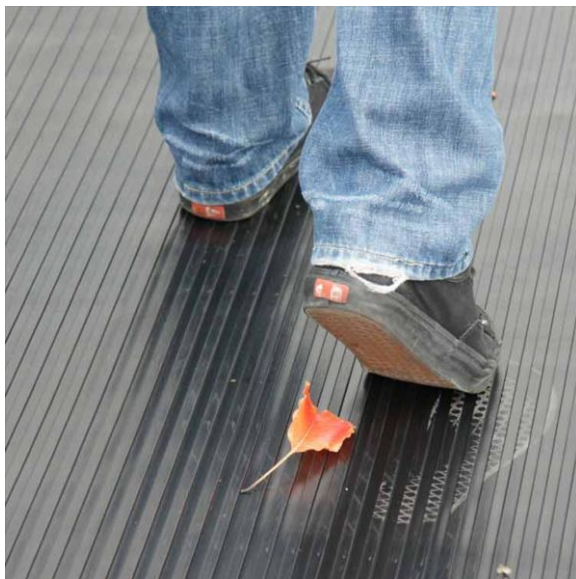

a. Branded Doormats

We do brand door mats that suit the business organizations using their corporate colors and logos information.

b. Non-Branded Doormats

We provide all types of entrance mats, heavy-duty rubber mats, interlocking doormats, and much more

EXTERNAL PRODUCTS

1. Door & Window Awnings

We specialize in manufacturing a variety of awnings for windows and doors throughout and are not limited to Zimbabwe. Tropical Vertical Blinds is proud to offer durable and high-quality products that last for years with little or no maintenance. There is a variety of choices from multiple combinations of color shades to suit your requirements as the shades can interchange in the candy stripe panels. And a variety of profiles are available.

Awnings are also called overhangs and are designed to protect your entryways from most types of inclement weather. They are installed at an angle for excess rain and snow to slide off them. The angle shades your doors and windows to keep the hot sunlight in the summer out of your spaces. This in turn helps to save you a considerable amount of money on your cooling bills in the dog days of summer.

Function

Fixed Awnings protect your valuable carpet, curtains, and furniture from the fading effects of ultraviolet rays, as well as reduce the heat load and cooling costs of your home during the summer. The result is more comfortable during the day and quicker cooling at night. Fixed Awnings can be custom-made to any size and the designs can be a standard shape or unique to blend with any type of architectural design.

Features

Awnings are made of extruded aluminum or metal frames (which can be powder coated) that are shaped by a bender. Tropical Vertical Blinds Fixed Awnings can be mounted over windows or doorways of homes, shops, and restaurants and can also be integrated with illuminated signage to promote your business.

Options

A Tropical Vertical Blinds consultant is able to guide you in the complete range of options available; an extensive range of fabric colors, pattern prints, or plains, available with a Blackout coating, making it ideal for verandas or areas where blackout is required:-

- Both the translucent and blackout finishes offer the maximum UPF rating of 50+, which dramatically reduces the amount of harmful Ultraviolet light entering a room.
- Tropical Vertical Blinds also offer you the option of neutral flocked backing on certain fabrics so that you can create a uniform look when viewed from the outside of the house.

2. Car sheds

Tropical Vertical Blinds Car-sheds material range from 70% - 700 % waterproof shade cloth and can last for above 6 years before it is changed. The shade cloth is strong, durable, and resistant to tearing and rotting. It is ultraviolet-proof to avoid your car being sun-scorched and is designed to provide shelter for cars, boats, and other large equipment that cannot be driven indoors.

Function

Our car sheds are renowned for their rugged construction, aesthetic appeal, and maintenance-free enhancement to any home and consist of a frame of 2 metal steel poles and a shade cloth (tarp), and metal wire the shade cloth is attached to the frame using (metal wire) along the topside and the backside.

Options

A Tropical Vertical Blinds consultant can guide you in the complete range of options available:-

- Wide range of colors to choose from
- Cantilever or standard design to choose from
- Choice of standard or custom-made carports
- Multiple combinations for car parks etc.
- The cantilever design allows easy parking without obstructing poles
- Choice of wall and pole mounting
- Rugged frame made from top-grade steel
- Non-fading shade cloth for all-weather protection
- Maintenance-free

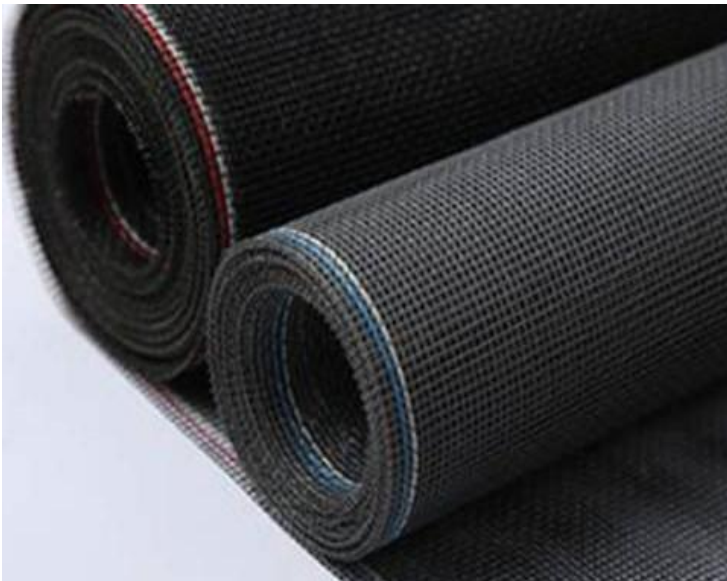

3. Shade Sails

Tropical Vertical Blinds allow an experience of brilliant color combinations and a variety of shade sails that transform your deck, pool, patio, or backyard into a beautiful oasis. The breathable, knitted fabric allows air to flow through the shade sail, creating a cool and comfortable outdoor experience while keeping you and your family protected from the sun

4. Fly-screens

We supply and fit all types of Fly Screens that prevent all kinds of irritating flies. They minimize all kinds of flies in your house, butchery, abattoirs, and all other rooms of the building.

FEATURES & USES

1. **High-transparency mesh** is one of the most popular materials used for window and door screens. Due to the notable strength and limited pliability of stainless hardware cloth compared to other insect screen materials, professional installation is recommended to ensure a wrinkle-free finish.
2. **Bronze screens** are resistant to corrosion. They are often used to restore windows and doors of antique buildings, historic homes, ships, and other applications where a hand-loomed aesthetic is desired.
3. **Stainless steel insect screen mesh** is typically implemented for marine use as well as other highly corrosive environments.
4. **Copper wire mesh** is less common for window and door screens, but in garden applications, the material is effective in repelling roots, snails, and slugs
