# ABOUT US

Feury Safety (Private) Limited was established in 2013. The founders of Feury Safety, have extensive engineering and project management experience emanating from quality educational backgrounds as well as broad industrial exposure and training through practical work.

The team of Founders have more than 20 years of engineering experience between them, spanning from Welding, Steelwork, Metalwork, Machining and Fitting, Interior Design, Safety Systems as well as Construction.

## APPROACH & IMPLEMENTATION:

Feury Safety ensures that clients form an integral part in the development and implementation of projects, facilitating change management and the transferring of vital system knowledge and skills to our clients. We believe in building long term relationships with both our clients and suppliers

Feury clients are all well established and have high expectations in terms of quality, return on investment, improved productivity, backup service and technical support.

Feury projects are delivered on time, within budget and to the requirements of our clients.

If required, Feury will partner with other companies and in such instances, act as project sub-contractors, project coordinators, system engineers, technical consultants or representative for relationship building in projects.

Feury has an apt and active team of employees who are fully committed to promptly respond to client call outs and requirements.

Our employees are carefully selected based on educational background and field experience.
