Grasp Chemicals, Hygiene Services and Electrical Hardware

INTRODUCTION

Grasp CHEMICALS, Hygiene Services and Electrical Hardware markets, distributes and manufacture a wide range of products within Zimbabwe which includes house hold care, automotive, industrial care and electrical products. Grasp is fast growing phenomenon that came into existence in 2015. Our networks enable us to supply quality products at most competitive prices thereby offering reliable flexible services to our valued customers at all times. Our committee to total quality management is a philosophy that extends to all facets of our operations. We have a client base that spans the whole towns, cities and supplying mostly to Zimbabwean market. Our specialty fields include supplying cleaning detergents, hygiene accessories and electrical products. Grasp has been actively in supplying a wide range of products that offers comprehensive, cost effective and environmentally friendly solutions. The management policy of GRASP is centered around **“customer’s satisfaction.”** We believe that it is far more important to gain customer’s trust than to win an isolation deal. To this effect **GRASP** has invested substantially to bring quality products and services.

SALES STAFF

The company has a highly experienced and competent team of employees with over 5 years combined technical in marketing and managerial skills. It has also a highly professional approach to service delivery and customer care attitude that proactively focuses on customer product needs, problems and aspirations that help provide the best service and the organization an ideal partner in providing product and service delivery efficiently and effectively.
